GRAS RA0262 1/2" MICROPHONE RAIN-RESISTANT PROTECTION GRID

A rain-resistant protection grid designed for 1/2" microphones

GRAS Sound & Vibration Skovlytoften 33, 2840 Holte, Denmark www.grasacoustics.com

Technology

Introduction

The GRAS RA0262 is a stainless-steel protection grid designed for 1/2" microphone capsules, including the GRAS 40AE, 40AF, 40AO, and 40AG, as well as other compatible microphone sets. It features an internal layer that helps shield the microphone diaphragm from light rain. However, other parts of the microphone set, such as the preamplifier, venting holes, and connector, remain unprotected. The RA0262 is equipped with a 12.70-60 UNS-2 thread, ensuring a secure attachment.

Quality & Warranty

GRAS accessories are made of stainless steel, alloys and high-quality composites. These items are covered by a 2 year warranty respecting their intended use. On consumables like batteries, cables and windscreen we offer a 6 month warranty.

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones and related equipment for industries where acoustic measuring accuracy and repeatability are of the utmost importance. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, consumer electronics and other highly demanding industries. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect, trust and require. GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands.
