Technology

Introduction

The RA0249 kit is a Polyoxymethylene (POM) version of the GRAS RA0237 Straight ear canal extension kit. It includes two POM straight ear canal extensions designed for compatibility with the GRAS KEMAR (45BB and 45BC) and the GRAS 43AG test fixture. These extensions are intended for use with 711-style ear simulators, such as the GRAS RA0045. The RA0249 kit is compatible with all GRAS pinnae, except for the Anthropometric Pinnae and Sound Quality/VA-style pinnae.

The RA0249 kit is included with the GRAS RA0251KEMAR Retrofit kit for test of Binaural Hearing Aid.

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones and related equipment for industries where acoustic measuring accuracy and repeatability are of the utmost importance. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, consumer electronics and other highly demanding industries. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect, trust and require. GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands.
