

Quick Guide

G.R.A.S. OP0024 Kit for Frequency Calibration of Flush-mount Microphone Sets

Description

The G.R.A.S. OP0024 is a kit with adapters for frequency calibration of G.R.A.S. flush-mount microphone sets.

These adapters make it possible to calibrate the G.R.A.S. 1/4" and 1/8" Flush-mount microphone sets with a G.R.A.S. RA0289 Electrostatic Actuator for Flush-mount Microphone Sets. The actuator fits a 1/2" flush-mount microphone without adapter.

Delivered Items

The following items are part of the delivery:

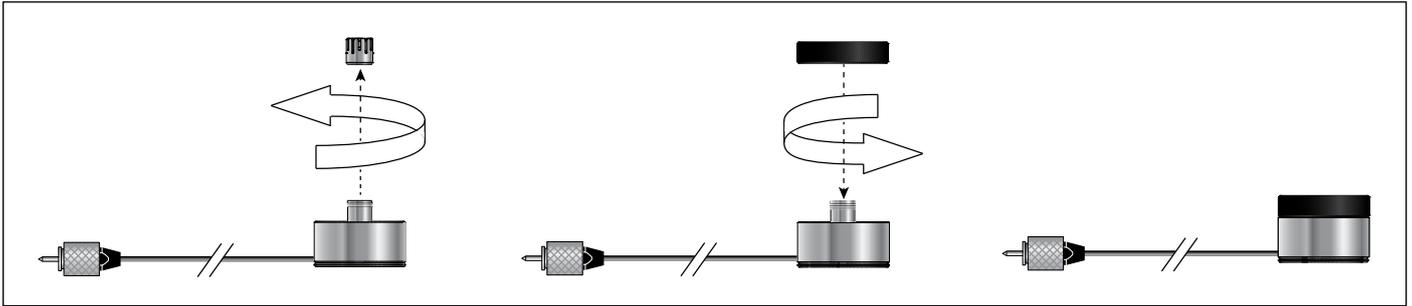

Electrostatic Actuator for Flush-mount Microphone Sets	RA0285
Actuator Calibration Adapter for 1/4" Flush-mount Microphone Sets	RA0242
Actuator Calibration Adapter for 1/8" Flush-mount Microphone Sets	RA0279
Actuator Calibration Holder for Flush-mount Microphone Sets	RA0289

G.R.A.S. OP0024

Kit for Frequency Calibration of Flush-mount Microphone Sets

Mounting

1. For 1/4" and 1/2" microphones, remove the protective cap and screw on the adapter as shown below.

2. Mount the RA0289 Holder in the AL0021 Calibration Stand.
3. Mount the microphone in the holder.
4. Mount the electrostatic calibrator over the microphone.
See the **Side view** below.
