

Length: 48 mm Inner threading for preamp.: 11.70-60 UNS-2 Outer threading for mic.: 11.70-60 UNS-2 Material: stainless steel

GRAS Sound & Vibration Skovlytoften 33, 2840 Holte, Denmark www.grasacoustics.com For use when humidity levels are high and only with a rear-vented 1/2 " microphone.

An indicator placed on the side of the dehumidifier shows when it needs to be dried out before further use.

The dehumidifier contains silica gel and removes humidity from the air in the microphone. When being saturated silica gel changes colour from orange/amber to white. The humidity removing properties are regained by drying it out. To to this, heat it for some hours at 100 degrees Celcius (or longer at lower temperature).

Quality & Warranty

GRAS accessories are made of stainless steel, alloys and high-quality composites. These items are covered by a 2 year warranty respecting their intended use.

On consumables like batteries, cables and windscreen we offer a 6 month warranty.

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones and related equipment for industries where acoustic measuring accuracy and repeatability are of the utmost importance. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, consumer electronics and other highly demanding industries. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect, trust and require. GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands.
