

# GRAS 26AI

1/2" Preamplifier with Integrated Connector, Low Frequency

Freq range: 1 Hz to 200 kHz

Noise: 1.8  $\mu$ V

Gain: -0.29 dB

Special feature: Low frequency applications

The 26AI is a 1/2" microphone preamplifier with integrated 7-pin LEMO male connector and 40 G input impedance.

## Introduction

GRAS26AI is a preamplifier designed for low-frequency applications in the laboratory and field and accommodates directly for all IEC 61094 standardized 1/2" externally polarized measurement microphones.

It is rugged and reliable and can handle microphone signals up to 50 V<sub>peak</sub> within 1 Hz to 200 kHz. The printed circuit board is made by use of thick-film substrate technology and optimized with respect to maximum suppression of microphonics and moisture rejection.

The high-quality, standard 7-pin LEMO male connector is integrated into the preamplifier and ensures that only one type of connector and cable is required for both connection and extension.

26AI is factory calibrated individually and delivered with a calibration chart stating its A-weighted and linear self-noise.

## Compatibility

These preamplifiers are compatible with 1/2-inch microphones as defined in international standard IEC1094 Measurement Microphones, Part 4: Specifications for working standard microphones. The mounting thread (11.7 mm - 60 UNS-2) is compatible with other available makes of similar microphone preamplifiers.

GRAS 26AI is provided with an integrated 7-pin LEMO series 1B plug.

|   |                             |                         |

## About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones and related equipment for industries where acoustic measuring accuracy and repeatability are of the utmost importance. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, consumer electronics and other highly demanding industries. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect, trust and require.

GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands. Read more at [www.grasacoustics.com](http://www.grasacoustics.com)
