

# GRAS 26TK

1/2" Standard Preamplifier with Integrated Connector

Freq range: 0.5 Hz to 200 kHz  
Noise: 1.8  $\mu$ V Gain: -0.25 dB  
Special feature: General purpose

The 26TK is a 1/2" microphone preamplifier with integrated 7-pin LEMO male connector. The CCP equivalent is GRAS 26CA.

The Type 26TK is delivered with a built-in TEDS chip and can be programmed as a single unit with a microphone fitted.

### Introduction

GRAS 26TK is a preamplifier designed for general purpose in the laboratory and field and accommodates directly all IEC 61094 standardized 1/2" externally polarized measurement microphones.

It is rugged and reliable and can handle microphone signals up to 50 V<sub>peak</sub> within 0.5 Hz to 200 kHz. The printed circuit board is made by use of thick-film substrate technology and optimized with respect to maximum suppression of microphonics and moisture rejection.

The high-quality, standard 7-pin LEMO male connector is integrated into the preamplifier and ensures that only one type of connector and cable is required for both connection and extension.

26TK is factory calibrated individually and delivered with a calibration chart stating its A-weighted and linear self-noise.

### Compatibility

26TK is compatible with 1/2-inch microphones as defined in international standard IEC1094 Measurement Microphones, Part 4: Specifications for working standard microphones. The mounting thread (11.7 mm - 60 UNS-2) is compatible with other available makes of similar microphone preamplifiers.

GRAS 26TK is integrated with a 7-pin LEMO series 1B plug.

## About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones to industries where acoustic measuring accuracy and repeatability is of utmost importance in R&D, QA and production. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, and consumer electronics. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect and trust.

GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands. Read more at [www.GRASacoustics.com](http://www.GRASacoustics.com)
