GRAS AL0029

1/4" Microphone Holder, POM

Material: Black POM

The AL0029 is an adapter for mounting microphones with 1/4" body diameter on tripods with a standard 1/4" thread.

Technology

Introduction

The GRAS AL0029 is an adapter for mounting a microphone with 1/4" mm body diameter on tripods having a standard 1/4" UNC-20 male thread. The angle is fixed at 90 degrees. For minimum acoustic influence, clamp as close to the output as possible. If total flexibility regarding the angle is required, then consider inserting the swivel head GRAS AL0005 between the microphone holder and tripod.

Alternatives

The stainless steel microphone holder GRAS AL0013 is similar to AL0029 regarding usage, but is superior regarding acoustical influence on the measurement. Another alternative is the RA0096 which is similar to AL0013 but is provided with the possibility to adjust the angle between 0 to 180 degrees in 45 degree steps. If a total flexibility regarding the angle is required, then consider the GRAS AL0003 which includes a swivel head AL0005. Notice that the swivel head can be purchased separatelly and can be be inserted between any GRAS microphone holder and a GRAS AL0004 or AL0006 Tripod.

Quality & Warranty

GRAS accessories are made of stainless steel, alloys and high-quality composites. These items are covered by a 2 year warranty respecting their intended use.

On consumables like batteries, cables and windscreen we offer a 6 month warranty.

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones and related equipment for industries where acoustic measuring accuracy and repeatability are of the utmost importance. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, consumer electronics and other highly demanding industries. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect, trust and require.

GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands. Read more at www.grasacoustics.com
