GRAS 12BA, 12BE AND 12BB CCP POWER MODULES WITH TEDS SUPPORT 12BA, 12BE AND 12BB

Microphone power: CCP Channel(s): 1, 2, or 4 TEDS via USB 12BA, 12BE and 12BB are 1-, 2- and 4-channel CCP power modules, respectively. They have SysCheck2™ and TEDS support and are powered by USB.

Technology

GRAS 12BA, 12BE and 12BB CCP Power Modules with TEDS Support

The GRAS 12BA, 12BE and 12BB are, respectively, single- two- and four-channel USB-powered CCP power modules with TEDS support, and they are able to take full advantage of GRAS <u>SysCheck2</u>™-enabled microphones, such as <u>GRAS 246AE</u>.

These power modules provide power to microphone sets without signal degradation, gain modification, or attenuation.

This series excels as a simple and cost-effective interface between TEDS-enabled measurement microphones and any <u>Audio Precision APx series</u> analyzer, which will automatically extract TEDS data for seamless integration. Full

SysCheck2[™] functionality is also automatically available when connected to <u>APx500 release v7.0</u> <u>Measurement Software</u> with GRAS 12BA, 12BE, or 12BB power modules and an <u>Audio Precision APx</u> <u>series analyzer</u>, or with an <u>Audio Precision APx</u> <u>series analyzer</u> with CCP and TEDS read capability.

However, these power modules can also be used with other brands. In this case, a TEDS utility program provides access to TEDS data on a PC. Download TEDS utility program here. The SysCheck2 Software Development Kit is available from the microphone product pages.

Power for the 12Bx series is provided through a USB cable using a USB 2.0 or USB 3.0 port and a USB-C port on the power module.

If more channels are needed, multiple power modules can be used concurrently.

Specifications

GRAS 12BA, 12BE and 12BB CCP Power Modules with TEDS Support

Frequency response (±0.06 dB) (with 100 k load)	Hz	10 to 20
Frequency response (±0.03 dB) (with 100 k load)	Hz	20 - 200k
Inherent noise, input shortet, 10 Hz - 20kHz	μVrms	2
Overload indication		No
Temperature range, operation	°C / °F	0 to +45 / 32 to 1113
Temperature range, storage	°C / °F	-40 to +75 / -40 to 167
Humidity (non-condensing)	%	max. 90
Dimension including mounting ears (WxHxD)	mm / "	108 x 44.2 x 178.3 / 4.35 x 1.74 x 7.02
Channels, 12BA		1
Channels, 12BE		2
Channels, 12BB		4
CCP preamplifier supply @ +24 V	mA	4
Max input Voltage	Vp	24
USB		С
USB Power + 5 Vdc	А	0.5
Weight 12BA, 1 Ch	g / oz	397 / 14.0
Weight 12BE, 2 Ch	g / oz	425 / 18.0
Weight 12BB, 4 Ch	g / oz	494 / 15.3

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones and related equipment for industries where acoustic measuring accuracy and repeatability are of the utmost importance. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, consumer electronics and other highly demanding industries. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect, trust and require.

GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands. Read more at www.grasacoustics.com
