

GRAS RA0237

Straight ear canal extension kit

Ear Canal Extension Kit with standard pinna-extension tube, \varnothing 7.5 mm, 8.3 mm long.

Standardized according to IEC60318-7. 2 pcs, O-rings included.

Introduction

The RA0237 kit includes two straight ear canal extensions designed for compatibility with the GRAS KEMAR (45BB and 45BC) and the GRAS 43AG test fixture. These extensions are intended for use with 711-style ear simulators, such as the GRAS RA0045. The RA0237 kit is compatible with all GRAS pinnae, except for the Anthropometric Pinnae and Sound Quality/VA-style pinnae.

Below is an example of a 711-style ear simulator mounted on a GRAS KEMAR or 43AG using the RA0237 kit.

About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones to industries where acoustic measuring accuracy and repeatability is of utmost importance in R&D, QA and production. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, and consumer electronics. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect and trust.

GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands. Read more at www.GRASacoustics.com
