

# GRAS AL0010

Microphone Calibration Stand

The GRAS AL0010 Calibration Stand provides a convenient platform for testing condenser microphones.

### Introduction

The GRAS AL0010 Calibration Stand provides a convenient platform for testing condenser microphones. It has a fixture for holding a 1/2" preamplifier (e.g. GRAS 26AG) securely in place as well as recesses and a column for safely parking electro-static actuators (i.e. RA0014 and RA0015) and microphone protection grids when not in use. It can be set up for both 1/2" and 1" microphones. The AL0010 is a useful addition to a set-up (which includes a GRAS 14AA Electrostatic Actuator Amplifier) for routinely calibrating condenser microphones.

### Quality & Warranty

GRAS accessories are made of stainless steel, alloys and high-quality composites. These items are covered by a 2 year warranty respecting their intended use.

On consumables like batteries, cables and windscreens we offer a 6 month warranty.

## About GRAS Sound & Vibration

GRAS is a worldwide leader in the sound and vibration industry. We develop and manufacture state-of-the-art measurement microphones and related equipment for industries where acoustic measuring accuracy and repeatability are of the utmost importance. This includes applications and solutions for customers within the fields of aerospace, automotive, audiology, consumer electronics and other highly demanding industries. GRAS microphones are designed to live up to the high quality, durability and accuracy that our customers have come to expect, trust and require.

GRAS Sound & Vibration is represented through subsidiaries and distributors in more than 40 countries and is part of Axiometrix Solutions, a leading test solutions provider comprised of globally recognized measurement brands. Read more at [www.grasacoustics.com](http://www.grasacoustics.com)
